NAVIGON **13 Series**

Highlights

- **NAVIGON MyRoutes**
- **Reality View Light**
- **Clever Parking**
- **Lane Assistant Pro**
- **Safety Camera**
- **POI Click**

NAVIGON MyRoutes

Whatever kind of driver you are, NAVIGON MyRoutes recommends the best route every time, adapted to your personal driving style, the day of the week and the time of day.
In addition, your NAVIGON also displays up to two further possible routes, providing a clear choice. You decide whether you follow the recommended route or take one of the alternatives.

Reality View Light/Reality View Pro

shows roads not as lines, but realistically, with asphalt and road markings and signs. This makes it easier for you to maintain an overview of motorway junctions and exits (Reality View Light: exits only).

Clever Parking

helps you to find a parking spot. Clever Parking displays nearby parking areas shortly before reaching your destination. You'll be able to avoid lengthy searches and just drive directly to a parking area.

Lane Assistant Pro

helps you to make your way through even the most hectic traffic situations. It provides you with a clear look ahead, showing you whether you need to change lanes for this turn and also for the next.

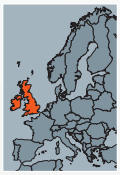
Safety Camera

provides you with prompt audio and visual warnings when you are approaching fixed camera locations.

POI Click

allows you to click and select a point of interest (POI) on the map such as petrol stations or tourist attractions. In addition, it provides essential information such as addresses, opening hours and telephone numbers. You can also choose to be taken there directly.

Technical data



Country Maps **NAVIGON 1300** (UK, Republic of Ireland)

Display:	3.5" touchscreen in 4 : 3 format
GPS:	SirF Atlas III + Instant Fix II
